

Dear Sir,

It is with a great sense of concern that I learned that Galeri Graficki Kolektiv was threatened with closure. This gallery, where I have had the honour of showing my work, has not only been a great advocate of the art of printmaking, but has always encouraged a spirit of international cultural exchanges and cooperation, even at the most difficult of times. Seeing it disappear would be a great loss to the art community and I sincerely hope that some kind of solution will be found to ensure it can continue its important work.

Yours sincerley,

Kikie Crêvecoeur
