

Dear friends,

As a artist, teacher, printmaker I know how important for countries are art and art network. Gallery of printmakers colective is the best place to show art to people. As a friend from Poland of artists from Serbia I am asking responsible people to keep going this gallery and take care of culture wich bulid international relations and culture of nation! I found Serbian artist as friendly and interesting.

I wish the gallery will run always and be Your most representative cultural place for print art.

All the best
