

Dear Madame, Dear Sir,

With perplexity I learned today that the Gallery Graficky Collectiv should be closed. I myself participated several times

in the International Print Triennial of Beograd and was always impressed by the high standards of this international event.

In 2007 I also participated in the International Art Assembly in Visegrad and took the opportunity to stay a few days in Beograd.

I very much hope that Beograd, as a capital and dynamic city, will keep its importance in the graphic world and that the group of artists

who is involved so actively will be assured of your support in the future.

Sincerely yours

Sylvie Karier
